MEMORANDUM FOR THE RECORD:

SUBJECT: AEDOGMA/1

A discussion took place in SR/2/CE on this date concerning the AEDOGMA/1
UPSWING/KUBARK complications and implications, between []

[] A recent DBF from the Bureau, indicated that KUBARK had failed to answer a
previous Bureau memorandum concerning a report on [] . It has ~~been~~
come to our attention that a memorandum was furnished to the FBI containing information
on [] , but not giving the source of information. The source of the
information given to the FBI was from the reports of Michel KORZAN and one Helene
LAHER as a sub-source. A follow up memorandum from the FBI asked for a confirmation
of information on [] , and asked this agency to give information on "*****"
provided by KORZAN and LAHER. In fact, the information given the FBI was from
KORZAN but had not been so designated.

[] ~~indicated~~ indicated that a CSCI to the FBI was being furnished on this
date and that a followup ~~WISIXX~~ CSCI would follow shortly stating that the CIA
information on "*****" was in fact that of Michel KORZAN.

[] indicated familiarity with additional aspects of the AEDOGMA/1 case,
saying that he was aware of AEDOGMA/1's role as agent and ~~info~~ informant for both
KUBARK and ZIPPER (now UPSWING) at the time of his [] assignment to Germany in
1951. [] agreed that a security review of the entire AEDOGMA/1 project was
in order and that a ~~dispatch~~ dispatch be sent to the field stations, saying this.

[] who also favored a security review of the project early in 1959, said
that a dispatch should be sent [] at once, stating that AEDOGMA/1 stop his
contact with UPSWING ~~xxx~~ in Paris, ~~xx~~ and that this not being accomplished. that

On 25 August 1959 the undersigned discussed several aspects of the AEDOGMA case with EE/G/Ln - [] The following points were brought up. [] feels that KUBARK must go now to UPSWING and lay our cards on the table about AEDOGMA. We can then tell them that we have known of their contact with Subject since 1955 and that we understand that AEDOGMA will continue to report to them, even now, although he has been transferred to Paris. We will ask UPSWING whether or not the French have been cut in on AEDOGMA and his contacts with AIS and/or SIS. [] feels that KUBARK has a reasonably good chance of getting an honest answer from UPSWING, if discussions are well handled. [] and I both agree that due to the close relationship between [] Representative in Munich, Col. Mercier, and the UPSWING service, it must be assumed that ~~by this channel~~ this channel has been utilized to alert the French services ^{by} of AEDOGMA, particularly in view of the longterm French visa requested by him. It should be noted that it took approximately 5 months for AEDOGMA to receive his French visa after his application at the French Consulate in Munich. [] ^{mentioned} also stated the following points concerning the two UPSWING case officers who are in touch with AEDOGMA: Alias JUPP is a member of the Munich UPSWING Staff and known to be a Soviet specialist dealing in Positive Intelligence. Col. SCHWALSCHLAGER, ^{who} is not stationed in Munich, ~~but~~ is ^{also} a ~~also~~ CE expert and he, in turn, is run by a Staff officer, alias ^{RISCHKE?} RISHKA also a known CE specialist.

On 25 August the undersigned also talked to SR/Reports and checked in their files ~~nothing~~ for evaluations and disseminations of AEDOGMA reports in the past. Very few reports have been disseminated over the past 8 years, and most of the cards bear the mark, NO DISSEM, overt information.

The writer next talked to - [], SR/3/PP, asking him for any information he might have on the Ukrainian Emigre activities in Paris. Shveda said that he did not know a great deal about the present KUBARK coverage of these activities, except that the [] outfit has about 50 members living there. [] also

informed me that, for an economy measure, the [] in Frankfurt are sending one or two of their members, now in Frankfurt, to Paris in order to organize some work that could be done by various members living in Paris. These activities would be various clerical jobs, which would cut down on the [] payroll in Frankfurt.

[] also said, that he was certain that [] would make himself known to one of the top, and witting members of the [] organization, and could, through this contact keep in touch with any activities among the emigre group, that is of interest to KUBARK. K J

[] stated that he has, in the past, read some of the reports of AZDOGA, 'C. those in connection with the Ukrainian Church. He stated that these reports were well written and intelligent, but in most cases, of marginal interest.
